FEATURES

PROFILE MANAGEMENT

Edit your profile from the dashboard, upload a picture, complete contact, and professional details, and change password

GROW YOUR NETWORK

View members from the entire community with a single click! Search members by first or last name. Follow members and connect!

NOTIFICATIONS

The central division or the notification pane in the dashboard displays all notifications that DESA, the Moderator and Controller. The notification pane also displays message threads in the communities that the user may choose to join. Thus the user will get to see all important notifications.

COMMUNITIES

The communities have been pre-decided by DESA to start with. Once a user joins a community, they can access the community messages & threads and leave a reply or post. The user can also upload a document or picture. A feature for moderation by DESA has been provided wherein DESA can delete any thread or reply if they deem it inappropriate.

FIND MEMBERS

This feature enables the users to search through the entire database of users and find members based on their personal details entered in the profile. The users can follow other members and send messages after connecting with them. the users can establish one-on-one contact with other users

YOUR MESSAGES

This feature provides means for users to see personal messages received from other members of the website. They can respond to these messages and establish connections. These messages can be administrative messages or notifications of events in the city of residence for the retired community.
